

Dated: 1<sup>st</sup> February 2023

**Dear Valued Customers & Partners,**

Intel recently announced changes to the roadmap associated with their Tofino<sup>®</sup> portfolio. Edgecore has been notified by Intel that Intel will stop development of next generation Tofino<sup>®</sup> programs, specifically the Tofino<sup>®</sup> 3 product family.

Edgecore has been in close discussions with Intel to understand the full extent of changes announced and its impact on existing Tofino<sup>®</sup> products. Intel's recent changes only impacts the future generation Tofino<sup>®</sup> 3 and the existing Tofino<sup>®</sup> 1 and Tofino<sup>®</sup> 2 families will continue to be supported by Intel for purchase and support. For more questions about Intel's recent decision, please reach out to your Intel representative for more information.

Edgecore will continue to offer for sale and to provide support and services for Edgecore's existing family of Tofino<sup>®</sup> 1 and Tofino<sup>®</sup> 2 products which are in mass production. Due to the discontinuation of the Tofino<sup>®</sup> 3 family, Edgecore will be stopping designs of Tofino<sup>®</sup> 3 switch products. Please reach out to Edgecore sales team or directly to me if you have any questions.

Sincerely,

**Heimdall Siao**
